Tri-State Ensembles

The Tri-State Ensembles is an organization formed to provide concentrated specialized training among Middle School and High School students. How exciting would it be to provide a University of Music education for the grade school level? Tri-State Ensembles is designed to offer specialized training in all areas of music beginning in 2010 with The Tri-State Trumpet Ensemble.

Benefits of Participating

Students get to perform and rehearse with musicians of similar ability level. Students will get to meet and make friends from other parts of the tri-state area. Many schools do not have smaller chamber ensembles in which the students can participate. This gives the student a more concentrated education on their instrument of choice.
